

OLYMPUS

Ski Mountaineering *Team Race*

30th March 2014

Mt Olympus is considered and referred to internationally as one of the mythical mountains of the globe, a real symbol, since it used to be the "home" of ancient Greek Gods according to mythology. The Olympian Gods were the core of Greek mythology, which considerably shaped ancient Greek thought. For the reasons mentioned above, we believe that a ski mountaineering event worthy of the symbolism and the value of the mountain should be held there every year. Just to keep the myth going....
